**Printing**

The collaboration of Ghanaian and American partners working jointly to reprint the TLMs nationwide is an integral part of the success of this program. The reprinting of these TLMs was approved by the Director General of the Ghana Education Service (GES) on December 9, 2009. Chicago State University's Board of Trustee approved a resolution on May 10, 2010 to reprint TLMs in three subject areas: (1) Numeracy, 2) Environmental Studies, and (3) Literacy for Kindergarten 1-2 grade levels.

As of January 31, 2011, 3,881,507 were printed in the year 2010 bringing the total amount since TLMP inception to 6,084,159 TLMs. Preparing the Primary 1-3 TLMs for print is a work in progress. The design of these TLMs is completed. The TLMs are at varying phases of the editorial and field testing processes. Both the Ghanaian and CSU COE design/editorial teams have been reviewing and incorporating editorial changes. Field testing is underway using materials printed using in-house printers purchased under TLMP’s first CA. Upon completion of the field testing the 18 titles will be made ready to send to the USAID office for approvals to print.
