

This publication includes deadlines for the month of September 2010. Deadlines marked by asterisks (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices. In others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Program: ACLS Collaborative Research Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 29, 2010

Supports collaborative research in the humanities and related social sciences. The aim of this fellowship program is to offer small teams of two or more scholars the opportunity to collaborate intensively on a single, substantive project. The fellowship supports projects that aim to produce a tangible research product (such as joint print or web publications) for which two or more collaborators will take credit. Awards are up to \$140,000 for a single project.

More details on website in July 2010. See <http://www.acls.org/grants/Default.aspx?id=3154> for details. E-mail: cmueller@acls.org

CFDA Number: N/A

Contact: Cindy Mueller, Manager (ext. 136)
Office of Fellowships and Grants

New York, NY 10017
212/697-1505

Program: ACLS Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 29, 2010

Supports research in disciplines of the humanities and humanities-related social sciences. Appropriate fields of specialization include but are not limited to: anthropology, archaeology, art history, economics, geography, history, languages and literatures, law, linguistics, musicology, philosophy, political science, psychology, religion, and sociology. Stipends are set at three levels based on academic rank: up to \$35,000 for Assistant Professor and career equivalent; up to \$40,000 for Associate Professor; and up to \$60,000 for Full Professor. E-mail: cmueller@acls.org See <http://www.acls.org/grants/Default.aspx?id=380> for updates.

Program: ACLS/New York Public Library Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 29, 2010

Offers five residential fellowships for up to 12 months of research by experienced scholars with a Ph.D. or equivalent to

utilize resources at the Library's Cullman Center for Scholars and Writers. Fellowships are intended to enhance a scholar's research in the humanities or humanities-related social sciences by facilitating access to the Library's various collections. Stipends are up to \$60,000; in some cases housing allowances will be given. Applicants for the ACLS/NYPL residential fellowships must also apply to the Cullman Center for Scholars and Writers at the NYPL. See <http://www.acls.org/grants/Default.aspx?id=380> for details. Program: Digital Innovation Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 29, 2010

Supports an academic year dedicated to work on a major scholarly project that takes a digital form. Projects might include but are not limited to digital research archives, new media representations of extant data, innovative databases, and digital tools that further humanistic research. Five fellowships will be awarded with each fellowship carrying a stipend of up to \$60,000 toward an academic year's leave and provides for project costs of up to \$25,000. Eligibility is open to scholars in

all fields of the humanities and the humanistic social sciences. See <http://www.acls.org/programs/digital/> for details. E-mail: cmueller@acls.org CFDA Number:

Program: East European Studies (EES)

Agency: Woodrow Wilson International Center for Scholars

Next Deadline: Sep 01, 2010

EES supports research on Eastern and

Southeast

Europe, or projects that can be linked to issues in the Western Balkans. Research Grants provide up to four months of support for new researchers or for scholars whose careers have been interrupted or delayed (12/1). The Junior Scholars' Training Seminar Program supports junior scholars to attend a seminar in Washington (5/6). Short Term Grants allow scholars residency for one month to use the library, archival and other resources (3/1, 6/1, 9/1, 12/1). Summer Research Scholarships also available (3/1). Program: Behavioral & Social Sci Rsrch on Understanding & Reducing Health Disparities

Agency: National Institutes of Health

Next Deadline: Sep 14, 2010

OBSSR & many NIH institutes & centers encourage behavioral & social science research (R01; R21) on the causes and solutions to health and disabilities disparities in the U.S. population. The primary basic research question is the causes of differences in the health status of

populations (e.g., differences between African Americans vs. European Americans or the US population as a whole). The goal is to move beyond documenting the existence of health and disability disparities to addressing causes and solutions. Expires 5/12/13. Program: Keystone Initiative Grants

Agency: National Fish and Wildlife Foundation

Next Deadline: Sep 01, 2010 (target date)

Provides from \$50,000 to \$300,000 in matching funds (at least a 1:1 non-federal match is required, and most competitive proposals have at least a 2:1 match) to conserve and restore fish, wildlife, and plants, and the habitats on which they depend. Projects should involve other conservation/community interests, leverage NFWF funding, and evaluate project outcomes. Target dates refer to required pre-proposals. Contact foundation prior to submission. See <http://tinyurl.com/ye5durc> for details. CFDA Number:N/A

Program: Science, Technology,
Engineering, and Math Talent Expansion
Program (STEP)

Agency: National Science Foundation

Next Deadline: Sep 28, 2010

Program: Expeditions in Computing

Agency: National Science Foundation

Next Deadline: Sep 10, 2010

Supports ambitious, fundamental research agendas that promise to define the future of computing and information. Investigators are encouraged to come together within or across departments or institutions to combine their creative talents in the identification of compelling, transformative research agendas that promise disruptive innovations in computing and information. Deadline refers to required preliminary proposals. Invited full proposals due 4/10/11. See

http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503169 for details.

Supports projects to increase the number of students receiving associate or baccalaureate degrees in established or emerging STEM fields. Type 1 grants support implementation projects at academic institutions. Type 2 grants support educational research projects on associate or baccalaureate degree attainment in STEM. Deadline refers to full proposals. Optional letters of intent due 8/17/10.

Limited submission: one Type 1 proposal per institution; no limit on Type 2 proposals. See

http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5488 for details.

Program: Research on Gender in Science
and Engineering (GSE)

Agency: National Science Foundation

Next Deadline: Sep 07, 2010

Supports research, the diffusion of research-based innovations, and extension services in education that will lead to a larger and more diverse domestic science and engineering workforce by broadening participation of women and girls in STEM disciplines. Letters of intent required for Research (2/9/11) and Extension Service (9/7/10) projects. Full proposals due 3/22/11 and 10/14/10 respectively. Diffusion of Research-Based Innovation full proposals due 10/14/10. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5475 for details.

Program: Energy for Sustainability

Agency: National Science Foundation

Next Deadline: Sep 15, 2010

Supports fundamental research and education in energy production, conversion,

and storage. Focus on energy sources that are environmentally friendly and renewable. Sources of sustainable energy include sunlight, wind, and biomass, as well as hydrogen and alcohols derived from renewable sources. Research that generates enabling science and technologies for more efficient hydrogen generation and storage also supported. Proposal windows are 2/1-3/3 and 8/15-9/15. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501026 for details.

Program: Environmental Engineering

Agency: National Science Foundation

Next Deadline: Sep 23, 2010

Supports fundamental research and education to understand the impact of human activities on the natural environment and develop the scientific basis for solving, mitigating, or managing environmental problems caused by human activities. The program fosters cutting-edge research based

on fundamental science and four types of engineering tools: measurement, analysis, synthesis, and design. Proposal windows are 2/1-3/3 and 8/15-9/23. See

http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501029 for details.

Program: Biomedical Engineering (BME)

Agency: National Science Foundation

Next Deadline: Sep 23, 2010

Supports fundamental, transformative, and discovery research applied to biological systems. The long-term impact of the projects can be related to disease diagnosis and/or treatment, improved health care delivery, or product development. Projects must advance both engineering and biomedical sciences. Two research themes are supported: neural engineering and cellular biomechanics. Proposal windows are 2/1-3/3 and 8/15-9/23. See http://www.nsf.gov/funding/pgm_summ.jsp

[?pims_id=501023](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501023) for details.

Program: Biotechnology, Biochemical, and
Biomass Engineering (BBBE)

Agency: National Science Foundation

Next Deadline: Sep 23, 2010

Supports research on problems involved in the processing and manufacturing of products of economic importance through use of renewable resources of biological origin and genomic and proteomic bioinformatics. Emphasis is on basic engineering and biological research contributing to understanding of cellular and biomolecular processes (in vivo, in vitro, and/or ex vivo) and to the development of generic enabling technology and practical application. Proposal windows are 2/1-3/3 and 8/15-9/23. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501024 for details.

Next Deadline: Sep 23, 2010

Supports fundamental research and education on combustion, fire, and plasma systems. Impacts include cleaner global and local environments, enhanced public safety, improved energy and homeland security, and more efficient manufacturing. This is not an applied research program, but results in broad, basic knowledge that can be used by others in development of systems. Broad-based computational, experimental, or diagnostic tools are major products of this endeavor. Proposal windows are 2/1-3/3 and 8/15- 9/23. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13366 for details.

Program: Research to Aid Persons with Disabilities (RAPD)

Agency: National Science Foundation

Next Deadline: Sep 23, 2010

Supports research for development of new technologies, devices, or software for persons with disabilities. Research may be directed at the characterization, restoration, and substitution of human functional ability or cognition, or to the interaction of persons with disabilities and their environment.

Areas of particular interest are disability-related research in neuroscience/neuroengineering and rehabilitation robotics. Undergraduate

Engineering Design Projects are also supported. Proposal windows are 2/1-3/3 and 8/15-9/23. See

http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501021 for details.

Program: Developing Global Scientists and Engineers

Agency: National Science Foundation

Next Deadline: Sep 15, 2010 (target date)

Provides international research experiences for US students. International Research Experiences for Students (IRES) support groups of undergraduate or graduate students conducting research abroad in collaboration with foreign investigators (target dates are 2/15 and 9/15; proposals must be submitted at least six months in advance). Doctoral Dissertation Enhancement Projects support dissertation research abroad by a single doctoral student in collaboration with a foreign investigator (proposals accepted any time).
