Notes: 1. The number of accidents reported from 1996 to 1998 by the Illinois Department of Transportation are accidents that occurred on state-maintained roads only, and they cannot be directly compared with the number of accidents reported in previous years, which included both state and federally maintained roads in Illinois.

2. Beginning in 1996, the City of Chicago began tracking accidents independently of the Department of Transportation. Totals for Cook County are the sum of the accidents reported by the Department of Transportation and the City of Chicago.
