

Configuring Windows Vista Dial-Up to Connect to CSU

- Click on the Microsoft logo (Start Button) at the bottom left hand corner of the screen
- Click on “Settings”
- Click on “Control Panel”
- Click on “Network and Internet”
 - Under Network and Sharing Center click on “Connect to a network”
 - At the bottom of the window click on “Set up a connection or network”
- Click on “Set up a dial-up connection”
- Enter in the Dial-up phone number
- Enter in your Logon ID (example: jdoe@csu.edu)
- Enter in your Password
- Type a descriptive name for the Connection Name
We usually recommend CSU Dial-Up
- To use this connection you should now have a “Connect To” option on the Microsoft logo (Start Button) at the bottom left hand corner of the screen, once you click on “Connect To” then click on the connection you just created.

Here is a list of dial up numbers.

3128957766	3128957768
6309297766	6309297768
7085707766	7085707768
7085757766	7085757768
7085857766	7085857768
7088767766	7088767768
7733537766	7733537768
7739137766	7739137768
8153287768	8158467766
8158467768	8475567766
8475577766
