Trustee Anderson noted the following concerns:

The LGBT community is being ostracized, mainly due to a lack of campus awareness and ignorance. CSU needs to create a “Safe Zone” for these students. The CSU community needs to visit the [www.ibhe.org](http://www.ibhe.org) website to become educated on the subject matter. The Career Development Center has been downsized, creating a hardship for students.

Trustee Anderson mentioned the passing of Dr. Terrence Kearney, Professor, in the College of Business, and expressed support for his family in their time of grief.

h. Faculty Senate

Dr. Yan Searcy, President of the Faculty Senate, invited the Board of Trustees to attend the Faculty Senate Meetings. He also summarized the following concerns: Academic decision changes are made without rationalism, which could affect accreditation of the University. There are concerns about the processes that are used to make these decisions. Dr. Searcy noted that the HLC reports that communication is an ongoing issue at the University. This is being addressed by having monthly meetings as needed with the President and Provost. The report also notes that feasibility studies are absent and that the lines of responsibility are blurred. Also, Dr. Searcy asked the Board to approve the Faculty Resolution to place a member of the faculty on the Board of Trustees.

Trustee Rozier will take the resolutions as recommendation and asked that the Dr. Searcy provides the Board with a general overview of the role and goals of the Faculty Senate.

   d. Amendment to Presidential Contract

   Attorney Neal recapped the Presidential Contract. The contract was originally approved in 2009 and calls for an annual performance review. The Board formed a committee, headed by the Chairman Rozier, Vice Chairman Scott and the previous Vice Chairman, which initiated the process of performance evaluation review of the President. The milestones, measures, and standards under that review were set forth in the contract. They were followed with precision, and comments were received from all Board members as well as others on the performance of the president. These comments were received and taken under advisement by the committee. Time was spent with the President negotiating the terms of the contract, essentially all the terms in the final version of the contract remain as they were originally approved in 2009. Attorney Neal noted the following modification:

   1. The original contract set compensation based on a ten month work schedule. It did not follow the fiscal year of the University. This is because President Watson began working October 1st. Therefore, subsequent years were adjusted to reflect a twelve month compensation on what was a ten month prorated calculation. The amount was moved to a full twelve month calculation. There were no addition compensation changes.

   2. There were some legal edits because the original contract was done by a different firm. There were changes made to reflect amendment made to state laws, i.e., vacation pay treatment.

   Essentially, the President’s contract is the same in its major terms as was originally approved by the Board in 2009.

   Trustee Rozier stated that President Watson’s job performance has been exemplary in many areas. There was not an amendment to the salary, but this is not a reflection on the work that he has done. Keeping the state and CSU situation in mind this was a fiscal decision.

   Trustee Young moved to approve the Amendment to the Presidential Contract. Trustee Joyce seconded the motion. The motion passed as follows:
8. Other Matters

a. Public and Employee Comments

Former Student Trustee Kerr expressed concern about the College of Business’ professional dress code. She stated that the dress code could be a burden for some students and that a student’s concern should be with their GPA not their wardrobe.

Dr. Philip Beverly noted the many qualities of faculty members:
- Collectively knows all things academic
- Knows the Students
- Knows shared governance
- Knows themselves
- Knows research – Collects data, and asks the 1st, 2nd, and 3rd question

Dr. Beverly suggested that the Board deepen its inquiry while maintaining the big picture of itself. What is the administration glossing over or not stating?

Mr. Terrell Chinn, a member of the Independent Student Union (ISU), provided an overview of the November 23, 2011 sit-in. Mr. Chinn expressed concerns about audit findings, reorganization, and the need for a senior thesis.

Professor Paul Gomberg reported on the ISU sit-in in the President’s Office. He stated that the students feel no one is listening to them and that they are treated as criminals.

Ms. Anastasia Dawkins expressed concern about the Westside Campus project. She stated that there are problems that need to be addressed at CSU and that the Westside Campus should not be open.

Mr. Eddie Phillips noted that students are here to be educated. He also stated that funding for sports teams should be secondary to education.

Mr. Ashley Foster noted that the administration should be working harder for the students.

Ms. Ebony Blair stated that she has observed the administration go above and beyond their duties. She noted that the administration, faculty and students need to work together.

Mr. Anthony Guido noted that the facilities are failing. Starbucks and McDonalds have better access to the internet than CSU. He noted that WI FI is not in the dorms.

Ms. Sharon Douglas, a transfer student, expressed concerns about the labs on campus. They are sub-standard.

Professor Philip Cronce noted that the Faculty Senate resolution to place a member of the faculty on the Board of Trustees should pass. He also stated that there was not any faculty input for the Provost position.

Ms. Rosa Garcia noted that WI FI does not work and the IT help desk has not been able to help.
