He has also made sure that the message concerning the future of CSU remains encouraging.

6. **Human Resources’ Report**

   Dr. Renee Mitchell gave an update on Human Resources.

   Chairman Young stated that frequently in the press, we hear that CSU has a high ratio of administrators to students and that it is highest in the state. The number of administrators laid off was 205 and that number divided into the total number of students comes close to the number reported in the press. Can you please explain this number?

   Dr. Mitchell replied that the Illinois Board of Higher Education (IBHE) defines administrators as vice presidents, vice chancellors, chancellors and directors that are over departments. In addition, the State University Civil Service System dictates the titles for civil service and administrators. In FY2014, FY2013, FY2012, and FY2011 the
data submitted by CSU to the IBHE, which included all five levels of administrators was incorrect. In the five levels of administrators, only the numbers from levels one, two, and a partial amount of three should have been submitted. Level 1 includes only five individuals (the president and vice-presidents). Level 2 includes approximately 20 individuals (deans and vice presidents). Level 3 includes a few directors that are over departments.

Dr. Mitchell stated that although, there are individuals with director title only directors that are over departments should be included in the number sent to the IBHE. The cumulative amount of levels 1, 2, and 3 (partial) gives you a ratio of 1:65 as oppose to the one reported in the press of 1:17.7.

Chairman Young asked if the correct number could be published?

Dr. Mitchell replied that the IER (Institutional Effectiveness and Research) has submitted the correction to the data.

Chairman Young commended Dr. Mitchell and her staff for the excellent job they did in getting the layoff/termination notice out to approximately 900 people in a short span of time.

         Dr. Carney reported the following:

         The third quarter of this academic year focused on excellence, rebranding, and repositioning the Division of Academic Affairs in the changing climate of higher education. Faculty, staff, and students are working on a number of initiatives to support collaborative and successful change and moving towards a new funding model for the University.

         The University Accreditation Steering Committee (UASC) is meeting weekly to complete the University's Assurance Report for the Higher Learning Commission. There are seven committees working diligently to address the criterion and prepare for a visit in fall 2016.

         The Office of the First Year Experience has seen an increase in the re-enrollment rate of first-time full-time freshman from previous years. As of the ten-day
census, the enrollment rate for the 2015 cohort was 85%. This is the highest rate in more than five (5) years.

Graduate enrollment for spring 2016 increased over last spring by 47% for new admits and 13% in total credit hours. This is attributed to the enrollment of 103 new International students in the Master of Science (MS) in the Computer Science Program. There are over 400 students registered through the Office of International Programs. We are continuing to refine the onboarding process for our graduate and professional students so that their experience is seamless, efficient, and worth while.

Students and faculty in the College of Pharmacy traveled to Haiti from January 31 through February 7th, 2016 to work in an orphanage and interact with locals who are in need of medical attention. Services to over 600 people were provided at this time.

Ms. Essence Jackson-Jones, Senior Art & Design major, artwork was featured on the Illinois Bureau of Higher Education Student Art Exhibition website.

Dr. Rowan stated that the Higher Learning Commission (HLC) would visit CSU on March 6, 2016 – March 8, 2016 and this is happening because CSU declared financial exigency. This visit is to ensure that CSU has the ability to continue operations and complete the semester under these unusual circumstances. Dr. Rowan stated that there would be sessions for faculty and staff participation.

President Calhoun stated that the HLC has required all Illinois Public Universities who are impacted by the budget impasse to step-up their reporting. President Calhoun stated that CSU is not being singled out by the HLC.

Dr. Rowan reported that through the (academic year 2015/2016) evaluation process and recommendations (according to the local 4100 agreement) a number of faculty have earned promotions, which have been approved by President Calhoun. Dr. Carol Cortilet-Albrecht presented the Enrollment Management update. Dr. Cortilet-Albrecht stated we are working very hard to ensure that CSU is an option and a choice in the community. She reported on spring enrollment successes including, increases in male students and non-citizen populations. She reported that applications (for the fall) are down by 17% over where they were last year at this time, however we have accepted 2% more students for the fall than we did last year at this time. There is a detailed analysis to look at how the things that have happened in terms of messaging about the university may have affected the applications that have been received at various times. Dr. Cortilet-Albrecht will provide the analysis to the Board next week. She reported the number of students that have accepted admission for the fall 2016 is 527. Dr. Cortilet-Albrecht reported that there were 23 recruitment events scheduled. Fall award letters have gone out to students. She also reported on the successful recruitment event at Marist High School.

Trustee Young asked how many current students might we lose in the fall and what is the strategy to minimize that number. Dr. Cortilet-Albrecht stated that the number is dependent on the message that is provided to the students. We will provide what the students want and that is proof that CSU will be here in the fall, some of the things we are doing includes opening summer and fall registration on April 11, 2016 and we will continue to aggressively engaged students.

Trustee Leak asked about CSU’s plans to work with Chicago Public School (CPS) to increase enrollment in the fall. Dr. Cortilet-Albrecht stated that CSU is working with counselors and students at CPS to ensure students that have been admitted actually attend in the fall and to work with those who are trying to be admitted are admitted.

President Calhoun stated that the reality of retaining current students and getting new student is continuously recruiting each current and potential student.

We have a negative cash balance of $5.5 million.

The month of May will be problematic from a cash perspective. Mr. Lucy stated that CSU has a financial problem. Last year at this time, we had a positive cash balance of $15 million. However, during this same time last year we had state appropriation of $40 million. The impact of not having received state appropriations is tremendous. He stated that cash is being managed on a daily basis, accounts receivable are being aggressively pursued, and cost is being controlled. Mr. Lucy stated that we are exploring all options to be able to continue to operate. Mr. Lucy stated that the month of May would be problematic financially.

Trustee Zollar stated that we are busy looking for ways to finance (private funding, loans, etc.) the operation of the University.       Mr. Tom Wogan reported on the budget crisis and the effect it is having on the campus. He stated that we are now in the ninth month of this historic budget impasse. He reported on legislation that has been proposed regarding funding for public universities.

      Mr. Wogan reported that the Governor publically says he wants to support higher education but has attached the promise of support to a series of non-budget related reforms that the legislative leaders have so far rejected.

      Mr. Wogan stated that the university has taken steps to alleviate tension among faculty, students and staff in regards to the effect the budget impasse is having on CSU. President Calhoun recently held meetings with faculty, staff and students to explain where we are in the process and to answer as many questions as possible.
Mr. Wogan stated that legislation approving funding for MAP grants passed both the House and Senate. The governor has said he will veto this bill because the state spending is out of balance with revenues. The bill did not receive enough votes in the House to over-ride a veto should the Governor stick to his position.

Mr. Wogan stated that he did not believe that public universities would be given borrowing authority by the General Assembly.

Trustee Zollar asked who the legislators are that vote present on bills or are absent that effect CSU and what is the effort to apply pressure. Mr. Wogan stated that we are applying pressure via the lobbyist, and through grass roots efforts. Mr. Wogan stated that the legislators in the House are Representatives Dunkin, Drury and Franks. A conversation was held concerning ways to reach those legislators that are voting against funding for CSU.

Trustee Hatch asked if the other public universities are having this conversation regarding the budget impasse.
