## **Financial Education Workshop**

# **Building Wealth in the Age of COVID**

**Hosted By:**

**Emile Washington**  
**COO OF BLACKFEM**

Building on the concepts from our October session we will explore ways adults can begin building wealth in the age of COVID. This will begin with a self-exploratory exercise of defining what wealth means in the context of our lives and how we want to fund our vision for the lives we want. Then, we will explore how we can secure the assets we need to begin funding that vision. This will include an introduction to investing, as well as discussions on saving, managing (all forms of) debt, and accumulating assets.

**Wed Nov 10th**

**12pm - 1:30pm**

**In-Person Location TBA**  
or Join Virtually via Zoom
