Logo Lockup A

This is our main logo lockup. It is comprised of two different elements: our book logo and our logotype.

Refer to the Usage section for information on how this logo is used.
Logo Lockup B

This is our shorthand logo lockup. It is comprised of two different elements: our book logo and our shorthand logotype for scenarios when we don't need to use the word University.

Refer to the Usage section for information on how this logo is used.
Logo Lockup C

**FORMAL AND INFORMAL USES**

This is our horizontal logo lockup. It is comprised of two different elements: our book logo and our horizontal logotype for scenarios when we must place the logo in a tight space like a banner ad. Due to the length of the lockup we prefer to keep the usage of this logo to a minimum.

Refer to the Usage section for information on how this logo is used.
Book Logo Variations

Our Book Logo has two different variations. Book Logo A has our 1867 which is our standard version, and Book Logo B has CSU for times when we don't use our logotype.

Refer to the Usage section for information on how this logo is used.
Rally U Logo

INFORMAL USES

This is our Rally U Logo. It brings attention to the word ‘go’ in Chicago by wrapping the phrase Chicago State in a U shape with a border. This logo is a primary logo, but should never be replaced by our main logo in terms of hierarchy.

Refer to the Usage section for information on how this logo is used.
1867 Logo Variations

INFORMAL USES

Our 1867 Logo has two different variations. 1867 Logo A is locked up with our Book Logo B and is the primary version of the two. 1867 Logo B is stand-alone and can be used instead as an alternate.

Refer to the Usage section for information on how this logo is used.
Logo Seal

**FORMAL USES**

This is our Logo Seal. It is comprised of two different elements: our book logo and our logotype wrapped around the contour of the circle shape. Our primary use for the seal is official presentations, documents, announcements, and trustee communications.

Refer to the Usage section for information on how this logo is used.

SECTION 03  Usage
### Which Logo Should I Use?

Our system works well when it comes to how we display our brand, but sometimes it can be confusing as to what logo we should be using for which occasion. This page provides a helpful approach to finding which logo would best suit the needs. When in doubt use the Logo Lockup A, it can be used across the board, and will always work well, unless it’s an extreme horizontal application like a banner ad.

Spacing Around Logos

The spacing around our logo lockups must be breathable, so a rule to maintain should be close to the width of the CHI lettering all the way around.
Spacing Around Logos

The spacing around secondary logos is also just as important and we can see from these examples what the distance around each one is based off of.
Minimum Sizing

Ensure the legibility of our school by using at least the minimum size for each width configuration.
Logos over photography

Our logo should only be used as white on top of any photograph ever, regardless of the color of the photograph / Black & White / Duotone etc.
Email Signatures

Our Horizontal (Logo Lockup C) should be used in the case of our email signature as shown here.
